HOBSON PRESS

Timber Insert CSK Hex Socket

Hobson Timber Inserts are a quick, easy, no mess solution for fixing wire rope balustrading into timber posts. They have an internal hex drive which is quick to install after pre-drilling. The internal thread allows for any combination of Hobson metal thread balustrading accessories to be fitted. Timber inserts are available in left and right hand threads.

TIMBER INSERT CSK HEX SOCKET 316 STAINLESS

**NEW
PRODUCT**

Part	Size	Hex Drive (mm)	Thread type	Length (mm)	Pack Qty
