M10 and M12 Threaded Rod Cutter

**NEW
PRODUCT**

PART No.

M10: XTBAB-M10

M12: XTBAB-M12

- » Cuts threaded zinc rod – mild steel only.
- » Cuts with little effort.
- » No burr removal required, enabling immediate use of thread.
- » Lightweight and compact.
- » Cutting components made from heat treated alloy steel for sharpness and durability.
- » Cutter supplied with dies for M10/M12 (M8 available on request).
- » Approximate number of cuts per die – 1,500 to 2,000 (Note: using other M10/M12 materials and coatings will reduce number of cuts and the quality of cut).
- » Replacement dies available.
