about our... **XBolt® PRO RANGE**

The Professional Range for concrete anchoring

High performance hex head XBolt® PRO concrete screw anchor for professionals with superior corrosion resistance. As it is screwed into the concrete it creates its own undercut by tapping the concrete hole. The cutting and locking mechanism enables the anchor to be used in close spacing and edge distance applications.

Features

- » Quick and easy install
- » Suitable for close anchor spacing and edge distance applications
- » Removable. Ideal for temporary applications
- » Hexagonal flange head for a neat finish
- » R1000 Hours corrosion resistance
- » ETA Option 1. Approved for cracked and non-cracked concrete
- » Conforming to AS 5216:2018

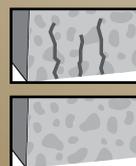

Applications

- » Hand rail fastening
- » Base plate fastening
- » Formwork and bracing
- » Channel and bracket fastening.
