

# DID YOU KNOW?

about our... **XBolt® BITE™ Anchor**

## XBolt BITE®

**NEW  
PRODUCT**

### Self-tapping Suspension Anchor

Internally threaded self-tapping anchor for suspension applications and fixings into concrete. The XBolt® Bite™ is an alternative to a drop-in anchor and offers the advantage of a non-expansion fixing.

#### Features

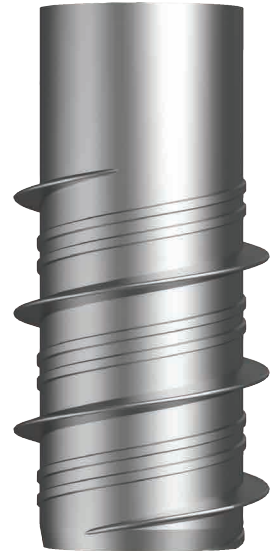

- » Internal (female) thread allows easy adjustment of bolt or rod.
- » Bolt or rod can easily be removed.
- » Fast installation with cordless tool (hammer setting should not be used).

#### Applications

- » Suspension of mechanical services
- » Pipe supports
- » Cable trays
- » Fire sprinklers
- » Suspended lighting
- » Alternative to drop-in anchor

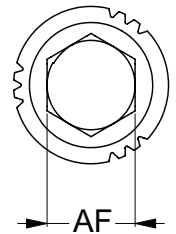

#### Trades

- » Plumbers
- » Electricians
- » Mechanical service installers
- » Air conditioning installers
