Ease of Use

- Intuitive interface for easy design
- Instantaneous updates to calculate results as you input data
- Real-time status bar provides feedback on fastener utilisation across multiple load directions

Reliable and Verifiable

- Recognises incorrect input about geometrical conditions and provides accurate suggestions for improvement
- The verifiable printout allows you to trace each calculation step of the program

Design with Confidence

- Design anchors for C1 and C2 seismic action
- Sophisticated combined loading and displacement calculator
- Ensure your specifications meet Australian standards
