## Load Binder Grab Hook

Ratchet-style load binders are suitable for tying down sharper or rougher items where ratchet straps cannot be used. They are much safer than old-fashioned lever-style load binders due to their high pretension and screw stops that maintain full thread contact throughout operation. Restrain heavy loads during transport with a reliable combination of ratchet-style load binder, winged grab hooks and Grade 70 or 80 chain.

*Chain sold separately.*

Applications	
<ul style="list-style-type: none"> <li>Transport operations</li> <li>Heavy duty load restraint</li> </ul>	

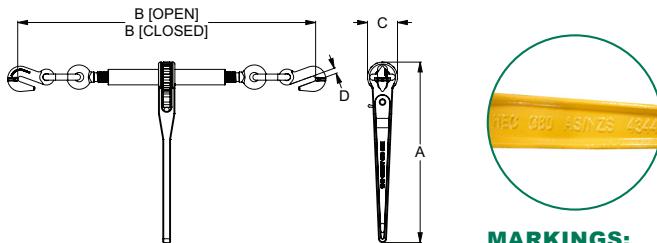

Material	GR80	Grade 80
----------	------	----------

Finish	PWD	Powder Coat
